

Register Devices to WiFi

You will need the MAC address for the devices you wish to register. You may register a Maximum of Three (3) devices.

1. From a device connected to VUUVIFI, navigate to https://clearpass.vuu.edu/guest/mac_list.php

The image shows a web form titled "Operator Login". It has two input fields: "Username:" and "Password:". Below the fields is a blue button labeled "Log In".

2. Logon with your VUU AD credentials (Email without @vuu.edu).
3. Click Create.

The image shows a web interface with a table. The table has four columns: "MAC Address", "Device Name", "Expiration", and "Sponsor". Above the table is a search bar with a "Filter" label and a "Create" button. A red arrow points to the "Create" button. Below the table is a "Terms of Use" link and a "Logout" button.

4. Enter the MAC Address for the device you wish to add (Game Console, TV, etc.).
5. Give the device a name.
6. Check the box to accept the Terms of Use.
7. Click the Create button.

The image shows a web form titled "Create New Device". It has several fields: "MAC Address:" with the value "12:34:56:78:90:ab" and a red arrow pointing to it; "Device Name:" with the value "Test Device" and a red arrow pointing to it; "Notes:"; "Terms of Use:" with a checked checkbox and a red arrow pointing to it; and a "Create" button with a red arrow pointing to it. A red arrow also points to the "Terms of Use" link. The text "New device being created by wifiTest" is visible at the top left of the form.

8. Connect the registered device to VUU-Guest-WIFI.
